LinkedIn <https://www.linkedin.com/in/raafay-khan-212514244/>

Thorough Developer with specialties in producing detailed specifications and writing program codes. Proficiency in HTML5, CSS and React.js. Organized, innovative and experienced in all stages of development.

Skills

HTML5 & CSS	<div><div></div></div>	Excellent
JavaScript	<div><div></div></div>	Excellent
React	<div><div></div></div>	Excellent
Node.js	<div><div></div></div>	Very Good
C#	<div><div></div></div>	Good
Java	<div><div></div></div>	Average

Experience

Social Media App

<https://social-media-app-011.herokuapp.com/>

Built using React.js for frontend alongside Node.js and MongoDB for backend. Application allows users to register, login, create and delete posts. Posts can only be created or deleted once logged in. Furthermore, once the user is logged in, user is presented with an option to change profile picture.

Shopping App

<https://shopping-app-011.herokuapp.com/>

Built with React.js and uses Amazon API from RadpidAPI to fetch data. Application allows users to view details of a product and add to cart. Once added to cart users will see a table containing all selected products where they can remove

individual products from the table by clicking delete or delete all products with the clear cart button.

Blog Site

<https://blog-app-nine-rosy.vercel.app/>

Built using Next.js and GraphCMS. Application allows users to view different blog posts. Blog posts can be sorted by category or searched for by title. Users may also click each individual blog post to inspect their details.
